

DRONE Command Vehicles

New Builds, Repairs, Modifications, Maintenance, Consulting

Rolltechs Specialty Vehicles has worked with first responders for many years building command trucks and trailers, tower trailers and many specialty vehicles. We are uniquely suited to building your Drone Command vehicle. We can use any platform, but we see strong demand for Mercedes Sprinter Vans as the starting platform. Here are the high lights of this style of vehicle

Customized Features and Design

- Ability to add security cameras interior/exterior
- Lay down mast for cameras, lights, etc available
- Mobile video options, Dish or Direct TV or off air antenna for local HD TV.
- LED red/white lighting inside and scene lighting outside.
- Night service keeping food/beverages cold over night
- Alternate energy solutions: Solar, battery banks, propane generators

Built to your needs. We consult with your team to understand your needs and ensure you get all the features you require. Our professional engineers design your project and provide detailed drawings.
